Phil Cockburn of EJ Cockburn & Son, a successful garage owner & technician from Fife, shows us his Tips & Tricks for diagnostics on non-start issues.

PHIL COCKBURN

These sessions will give you an understanding of the most common problems in various fields.

4 WHEEL DYNO OPERATIONS AND DIAGNOSTICS

Can a 4 wheel dyno enhance your ability to diagnose problems and help turn a profit with performance measurement? Top Technician Clive Atthowe, owner of CAT Automotive in Norwich, will be discussing the pros & cons of using a 4 wheel dyno for performance and Diagnostic operations within his business.

CLIVE ATTHOWE

DPF CLEANING

Learn how to generate a profit and retain customers with in-situ DPF cleaning. Darren Darling from The DPF Doctor gives an insight into the benefits of in-situ DPF cleaning and some helpful tips.

DARREN DARLING

ADVANCED DRIVER ASSIST SYSTEM CALIBRATION

ADAS Awareness including systems currently fitted to many vehicles, both Camera and Radar systems, what is controlled, calibration requirements and duty of care. Session includes a live calibration on a vehicle using the HGS CSC tool.

NEIL HILTON

MARTYN SHAW

DOUBLE CLUTCH TECHNOLOGY INCLUDING REPLACEMENT DEMONSTRATION

Demo of how double clutch technology works, and the differences between the most popular VAG, Ford, Renault & Fiat systems. Delegates wishing to take the LuK 2CT IMI assessment must attend this session before assessment, and book the assessment as a replacement of one other session in this group.

ALISTAIR MASON

JONNY HARRIS

All sessions correct at time of going to press, may be subject to changes

GROUP B

Group B sessions are done over the 2 days, with each lasting 90+ minutes.

DOUBLE CLUTCH TECHNOLOGY INCLUDING REPLACEMENT DEMONSTRATION

SCHAEFFLER REPXPERT

Demo of how double clutch technology works, and the differences between the most popular VAG, Ford, Renault & Fiat systems. Delegates wishing to take the LuK 2CT IMI assessment must attend this session before assessment, and book the assessment as a replacement of one other session in this group.

ALISTAIR MASON

JONNY HARRIS

HYBRID/ELECTRIC VEHICLES

Eure!Car CERTIFIED MASTERCLASSES

Electrical System overview including Safety precautions, voltage regulation and the charge cycle. Learn essential safety precautions and understand some basic principals of hybrid vehicles.

Eure!Car

COMMON HYDRAULIC TENSIONER, STRUT TOP AND WHEEL BEARING FITTING ISSUES

NTN SNR

Understand the correct way to fit a wheel bearings and see the damage caused by doing it wrong. Practical demonstrations showing the right and wrong ways, a Hydraulic tensioner, strut tops and wheel bearings can be fitted, and the implications of getting it wrong.

MARK KIDD

KEITH SKINNER

PICOSCOPE - AN INTRODUCTION TO OSCILLOSCOPE DIAGNOSTICS

pico Technology

PD testing, basic checks and using PicoScope in everyday diagnostics – ideal for new or novice PicoScope users.

JON PARKER

These sessions will give you an understanding of the most common problems in various fields.

CLUTCH INNOVATIONS

SCHAEFFLER REPXPERT

See the latest innovations from LuK including self adjusting clutch, concentric slave cylinders, dual mass flywheels, damped flywheel clutch and DMF with centrifugal pendulum absorbers.

ROBERT CARTER

MECHANICAL DIAGNOSTICS USING PICO NVH & WPS

ADS LIMITED

Without doubt the biggest concern with technicians and customers is getting it right! There are two words that define the world of diagnostics, opinion and evidence! In this workshop, we will be demonstrating real-time compression evaluation using Pico WPS and vibration analysis using Pico NVH. Eliminate the guesswork with confidence using these techniques.

FRANK MASSEY

LABOUR - YOUR ROUTE TO SUCCESS

the garage inspector

Understand what makes your profit, and how to maximise it. Andy will be sharing his vast experience on the profit generators within your business, the staff you employ and how to utilise them to maximise efficiency and profit.

ANDY SAVVA

EFFICIENT ENGINE AND SYSTEMS CLEANING TDC – TOTAL DEPOSIT CONTROL

BG

Clean-up demonstrations including diesel and petrol, injection systems, air intakes, DPF and EGR - plus other fluid exchange services. Introducing BG's New Platinum service for GDI engines.

Ciaran Leyden

All sessions correct at time of going to press, may be subject to changes

GROUP C

Group C sessions are done over the 2 days, with each lasting 90+ minutes.

LABOUR - YOUR ROUTE TO SUCCESS

Understand what makes your profit, and how to maximise it. Andy will be sharing his vast experience on the profit generators within your business, the staff you employ and how to utilise them to maximise efficiency and profit.
